EXPLORER LIGHTING

PRO COMP

off-road driven!™

EXPLORER LIGHTING

The next generation of high performance lighting systems has arrived.

Pro Comp Explorer lights are designed for the off-road enthusiast who demands the best. After nearly 20 years as a premier source of off-road lights, Pro Comp is again lighting your path with the most advanced lighting systems ever offered.

New LEDs and HIDs join the existing line-up of dependable halogen lights to provide a broad selection from which to choose. These new lights feature state-of-the-art construction and industry-leading features to handle extreme off-road abuse without a flicker.

Whether you are using your rig for rock crawling, hunting game or pre-running a race, you can explore with confidence.

LED DOUBLE ROW LIGHT BARS

When you need maximum lighting performance, turn to the Explorer LED Double Row Light Bars. Each light bar is comprised of an array of finely tuned LEDs combined into a high-powered, easy-to-mount package. The heat produced by such massive illumination is dissipated by an integrated heat sink system and results in consistent, long lasting performance. Lights are completely waterproof, dustproof and available in a variety of lengths for all your application needs.

Model	Part No.	Available Beam	# of LEDs	Power (watts)	IP Rating	AMP Draw	Raw Lumens*	Certificate	Beam Distance (M)	Peak Beam Intensity (cd)

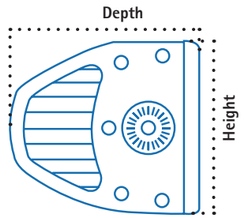
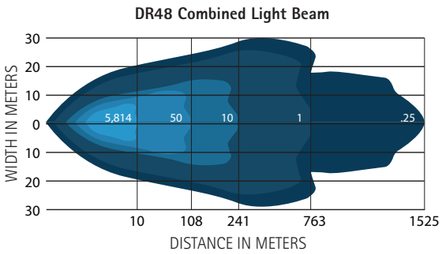
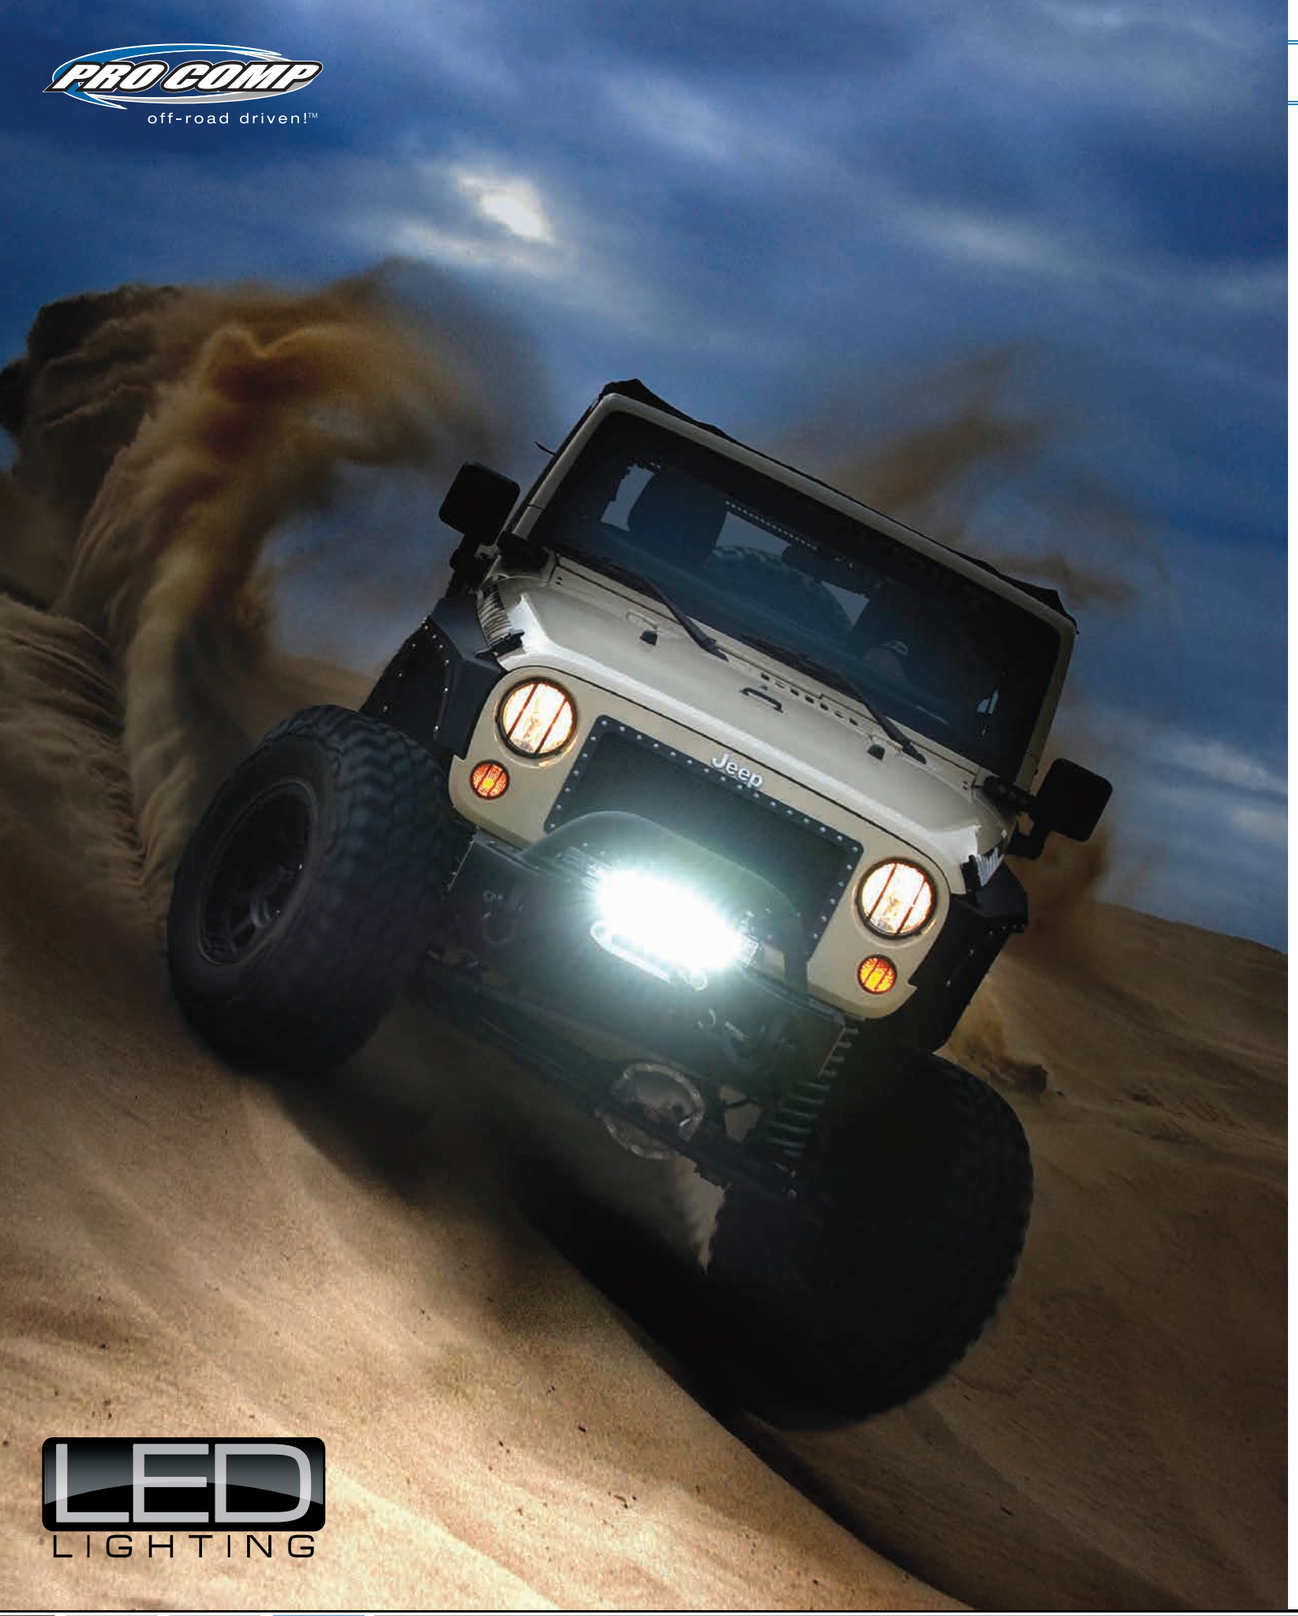
- Cree high output 3W LEDs produce ultra bright light
- 50,000+ hours of LED life
- Tuned chrome reflectors engineered to project maximum amount of light
- 6063 extruded aluminum housing with integral heat-sink provides durable structure and efficient cooling
- Shockproof, waterproof and UV-shielded to guard against the elements
- Compact low-mass design for easy installation
- Durable anodized polyester powder coat finish provides protection in any environment
- Adjustable mounts allows precise setting of beam angle
- Wiring harness with relay, quick connector and illuminated switch included with every light





Note: This product is designed for off-road use only.



LED SINGLE ROW LIGHT BARS

When space is limited for your lighting options, look to the Explorer LED Single Row Light Bars for the solution. These high performance LED Light Bars produce an amazing amount of illumination in a sleek low profile design. Each unit houses a combination of spot and flood reflectors to project the maximum amount of light on your path. Easy to adjust side mounts make precise setting of the light angle a snap. Managing the heat produced by the light is the integrated heat-sink for years of long lasting consistent performance.

LED SPORT LIGHTS

Sold as Pair Pack

The hard-working Explorer LED Sport Lights can be mounted just about anywhere you need illumination. Whether on the trail or at your work site, these high-powered LEDs and precision-tuned optics pack a punch by projecting the maximum amount of light possible. Each unit is completely waterproof and dustproof to handle whatever Mother Nature can dish out. Integrated heat sinks keep heat under control for lasting performance.

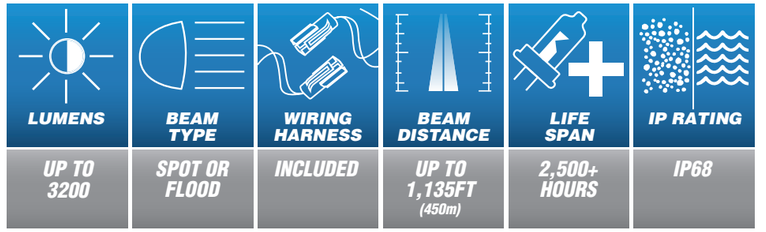
*Based on manufacturer specifications

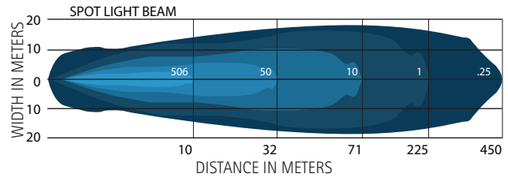
Model	Outer Dia.	H w/Mount	Depth
4" HID	5.7"	7.28"	4.4"
7" HID	8.07"	10.04"	5.7"



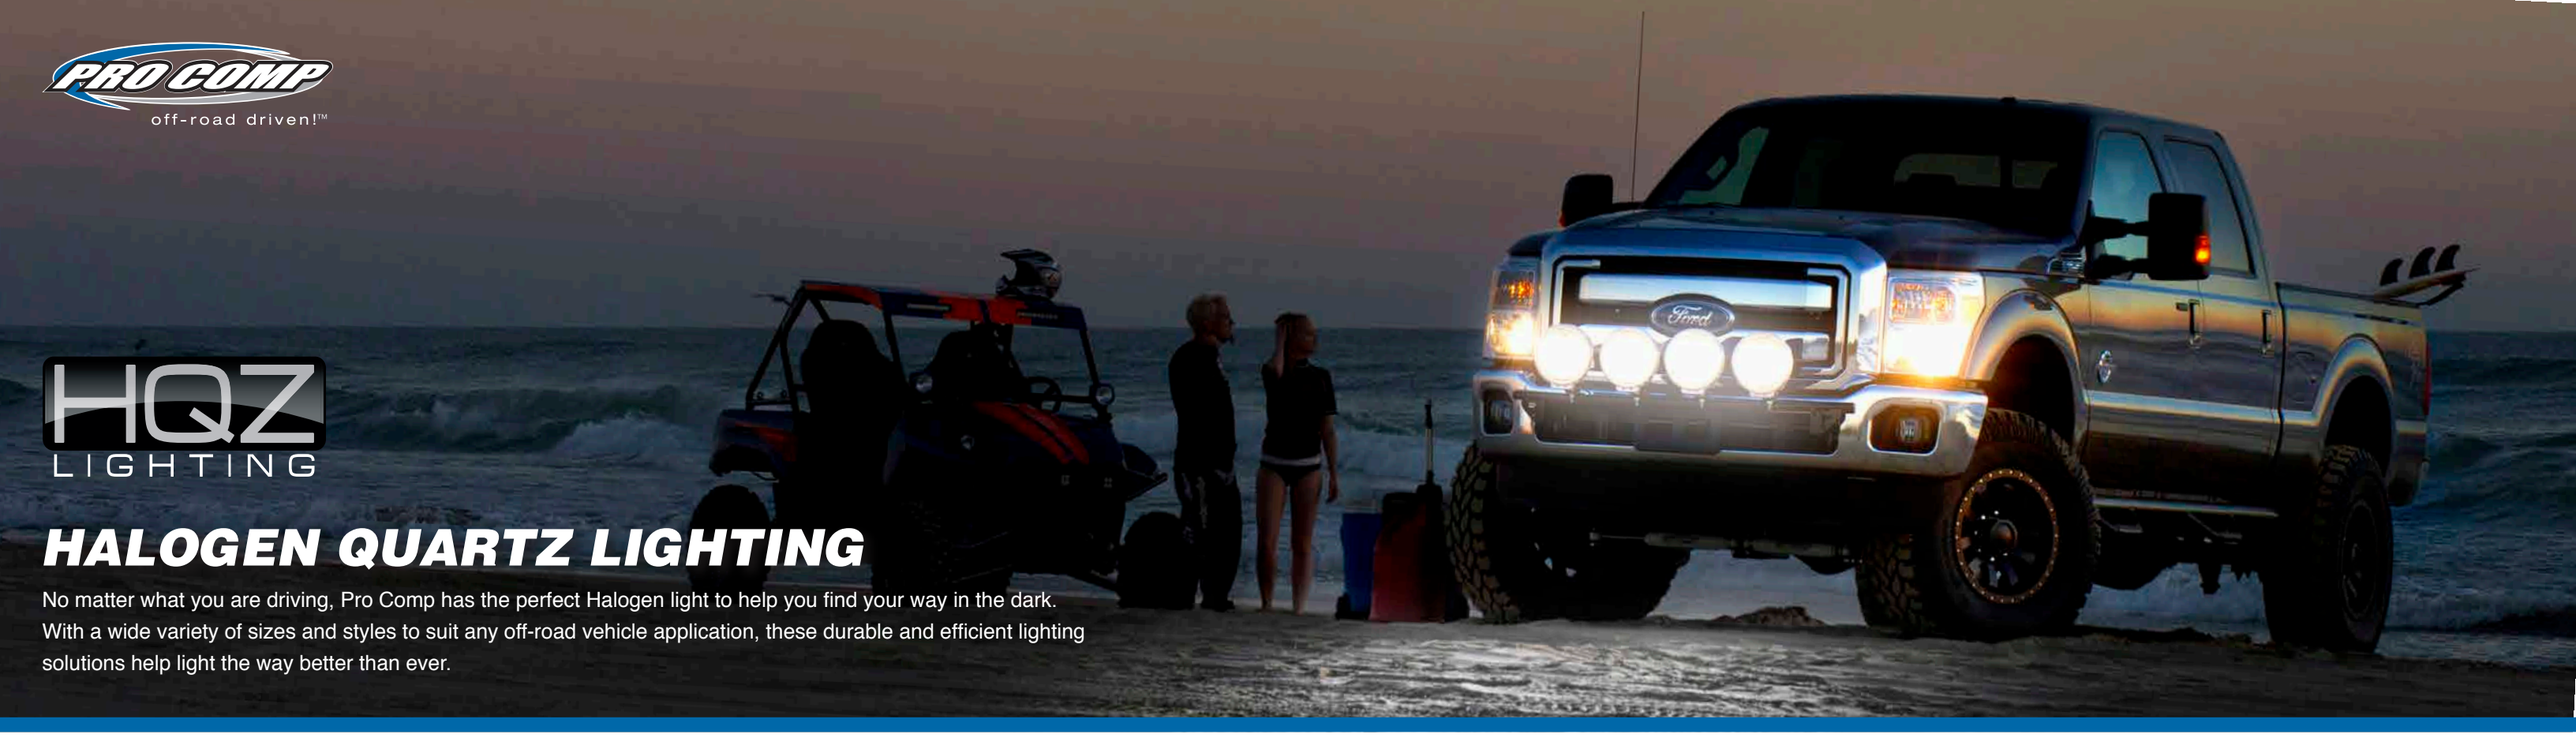
- Features a 35W HID bulb that produces blue-white light that is 300% brighter than a standard 55w halogen bulb
- HID bulb provides 2500 hours of life which is 500% longer than standard halogen bulb
- Aluminum compound curve reflector engineered to provide maximum light output and durability
- Integrated internal ballast for increased protection and easy installation
- Includes two lens shields for added protection when lights are not in use
- Includes IP68 water and dust proof quick connect terminal and extra-long (4 Ft) harness
- High strength ABS outer housing for maximum resistance to impact and corrosion
- Compact low-mass design for vibration resistance
- Tempered clear glass lens for added strength and chip resistance
- Pro Comp Promise Lifetime Warranty

Includes Clear/Amber Lens Guards

7" HID Combined Spot/Flood Light Beam



Note: This product is designed for off-road use only.



HALOGEN QUARTZ LIGHTING

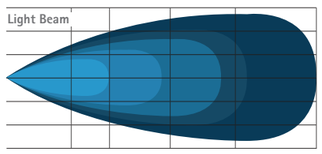
No matter what you are driving, Pro Comp has the perfect Halogen light to help you find your way in the dark. With a wide variety of sizes and styles to suit any off-road vehicle application, these durable and efficient lighting solutions help light the way better than ever.

7" Round Slim Profile Driving Light

MOTORSPORTS SERIES

- Slim driving beam increases high beam output by 40% for safer night driving
- High impact ABS case for outstanding durability
- Specially fluted glass lens delivers long range brightness and even distribution
- 100w light with highly polished reflector
- Wiring harness sold separately

Model	Watts	Outer Dia.	H w/Mount	Depth
9851	100w	7.125"	8"	2.5"

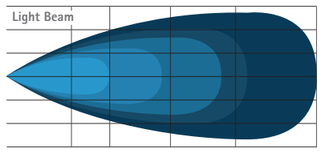


9" Round Competition Driving Light

MOTORSPORTS SERIES

- H11 Quartz/Halogen Technology - extremely long lasting H11 55w bulb provides the output of a 100w light. 99,000 candela
- Round competition lens housing made of high impact ABS housing
- All glass lens and highly polished reflector
- Clear stealth plastic lens guard included

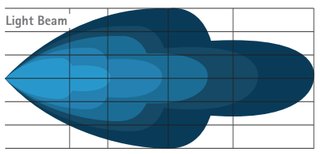
Model	Watts	Outer Dia.	H w/Mount	Depth
9911	55w	8.6"	9"	5"



8" Round Competition Driving Light

- Quartz/halogen 130-watt H3 bulb
- Specially fluted lens/polished reflector deliver long range brightness
- Available in high-gloss black (9131) or chrome (9130) housing
- Wiring harness sold separately
- Durable, hard cover included

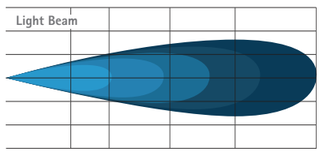
Model	Watts	Outer Dia.	H w/Mount	Depth
9131/9130	130w	8"	9"	3.875"



6" Round Competition Driving Light

- Anti-vibration features: special shock-absorbing rubber gasket around the lens and reflector. Also comes with double rubber, competition-style mounts
- Optically-precise glass lens with highly polished reflector
- Wiring is protected by flexible metal conduit
- Wiring harness sold separately
- Durable, hard cover included

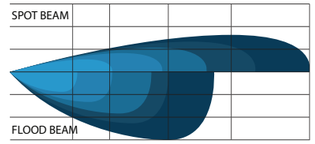
Model	Watts	Housing	Outer Dia.	H w/Mount	Depth
9003	100w	Chrome	6.125"	7.325"	5.25"
9004	100w	High Gloss Black	6.125"	7.325"	5.25"
9160	130w	Stainless Steel	6.125"	7.325"	5.25"



5" Round Competition Spot and Flood Lights

- High performance compact light with slim profile
- Optically-precise glass lens with highly polished reflector
- Available with clear (spot) or fluted (flood) lens
- All steel housing in high-gloss black or polished chrome
- Competition-style mounting
- Durable, hard cover included

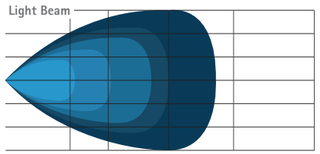
Model	Watts	Type	Housing	Outer Dia.	H w/Mount	Depth
9550	55w	Spot	Chrome	5.5"	6.375"	2.5"
9551	55w	Spot	High Gloss Black	5.5"	6.375"	2.5"
9561	55w	Fluted	Stainless Steel	5.5"	6.375"	2.5"



6x9 Rectangular Driving Light

- Bright 100 watt high performance driving light with the versatility of a driving/flood light
- High-gloss black with hard plastic cover
- Wiring harness sold separately

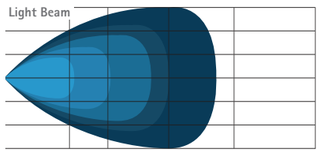
Model	Watts	Width	H w/Mount	Depth
9002	100w	8.375"	7"	3.5"



5x7 Rectangular Driving/Fog Lights

- Quartz/halogen 100-watt H3 bulb
- High powered light easily adapts to grill guards, pro-runner front bumpers and other locations
- Wiring harness sold separately

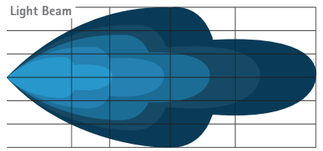
Model	Watts	Width	H w/Mount	Depth
9101	100w	7.625"	5.375"	3.75"



4x6 Driving Light (Pair Pack)

- Two clear driving lights, complete wiring and switch kit, in one high-performance package
- Lights are 55-watt quartz/halogen bulbs for enhanced efficiency
- Multi-position mount facilitates installation and positioning
- Available with amber fog light (9250) or clear driving light (9200) lenses, in black ABS housings

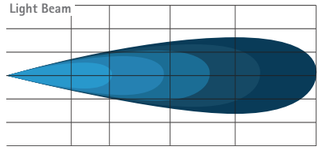
Model	Watts	Lens	Width	H w/Mount	Depth
9200	55w/ea	Clear	5.75"	3.375"	2.625"
9250	55w/ea	Amber	5.75"	3.375"	2.625"



Handheld Spotlight

- H3 bulb and 55 watts of lighting power in the palm of your hand – ideal for emergencies
- Includes 12-foot coiled power cord that plugs into any 12V cigarette lighter receptacle
- Available in high impact black ABS housing with built-in handle and rear on/off switch
- Highly polished reflector

Model	Watts	Lens Dia	Length	Depth
9011	55w	5"	10.25"	2.25"



LIGHTING ACCESSORIES

Light Switch Kits

- Single Kit (9300) features heavy duty switch with one relay for two lights and one switch panel
- Double Kit (9400) features heavy duty switch two relays for four lights and switch panel with two switches
- LED Switch Kit (76200) comes with wiring harness equipped with a 40-amp relay and switch panel with one rocker switch

Part No.	Kit
9300	Light Harness Switch Kit - Single Kit
9400	Light Harness Switch Kit - Double Kit
76200	LED Light Switch Kit

Light Bulbs

- High quality Quartz Halogen bulbs
- Packaged each for individual sale
- H11 / 55 watt (011) and H3/100 watt (098) light bulbs work with Motorsports Series
- H3 / 55 watt (9766) and H3 / 130 watt (9768)
- Refer to application guide for details

Part No.	Bulb	Watts	Comments
011	H11	55w	Motorsports Series
098	H3	100w	Motorsports Series
9766	H3	55w	
9768	H3	130w
