THE NEW A/T SPORT

GETTING YOU TO YOUR NEXT ADVENTURE

GETTING YOU TO YOUR NEXT ADVENTURE

The all new Pro Comp A/T Sport can take you wherever you want to go. Whether you are trying to navigate to that killer kayaking spot, seeking to make the first tracks on a fresh powder day, or just want to get away from civilization, Pro Comp's new A/T Sport is the tire to get you to your next adventure. The A/T Sport is capable in any terrain while maintaining quiet on–road manners and backed with a 60–day trial and 60,000 mile warranty.

FEATURES

- ☑ Sweeping groove technology increases traction and stability in all road conditions
- ☑ Staggered design increases grip in all–terrain and inclement weather environments by clawing the driven surface
- ☑ Side holder lugs greatly improve traction in all–terrain environments and all–weather conditions while increasing puncture resistance
- ☑ All–Terrain compound formulated for the optimum performance across wet, dry, on– and off–road surfaces
- ☑ Multi–pitch variation quiet ride assurance – alternating tread blocks reduce pitch noise as the noise from one block pitch is canceled out by another

PRO COMP

ON THE EXTREME EDGE

The Pro Comp Xtreme MT2 radial is designed for full–size trucks, Jeeps and SUVs that see a combination of on– and off–road use. No matter if it's hauling heavy loads or exploring rugged terrain, the Xtreme MT2 delivers the toughness and traction needed to get the job done. The aggressive open tread design was optimized using computer modeling to deliver unsurpassed grip and control without excessive noise.

FEATURES

- 2–step tread block design enhances stability, braking performance and promotes even tread wear
- Alternating scalloped shoulder lugs and aggressive sidewall tread pattern deliver extra bite and traction in mud, rocks, dirt and trenches
- Full length elliptical siping for improved wet and cold weather traction
- Rock rejection ribs help dislodge rocks caught between the tread blocks
- Enhanced upper sidewall treatment for better cut and abrasion resistance.
- Open lug tread pattern optimized for self cleaning for improved performance in mud and snow. Eliminates loss of traction when you need it the most.

40K TREADWEAR WARRANTY

60 DAY RIDE ASSURANCE

FOREVER WARRANTY NON PRORATED REPLACEMENT

XTERRAIN

Since its introduction the Pro Comp Xterrain has been regarded as one of the most effective off–road tires available for harsh terrain. Our engineers love to use this tire when testing off–road suspension products because of its amazing performance and durability. Its advanced directional tread pattern is designed to provide maximum traction and control both on– and off–road. The tread design is also much quieter than other aggressive off–road tires, making it easier to live with on the street. If you're looking for the ultimate off–road tire that will also perform on the street, the Xterrain is the perfect choice.

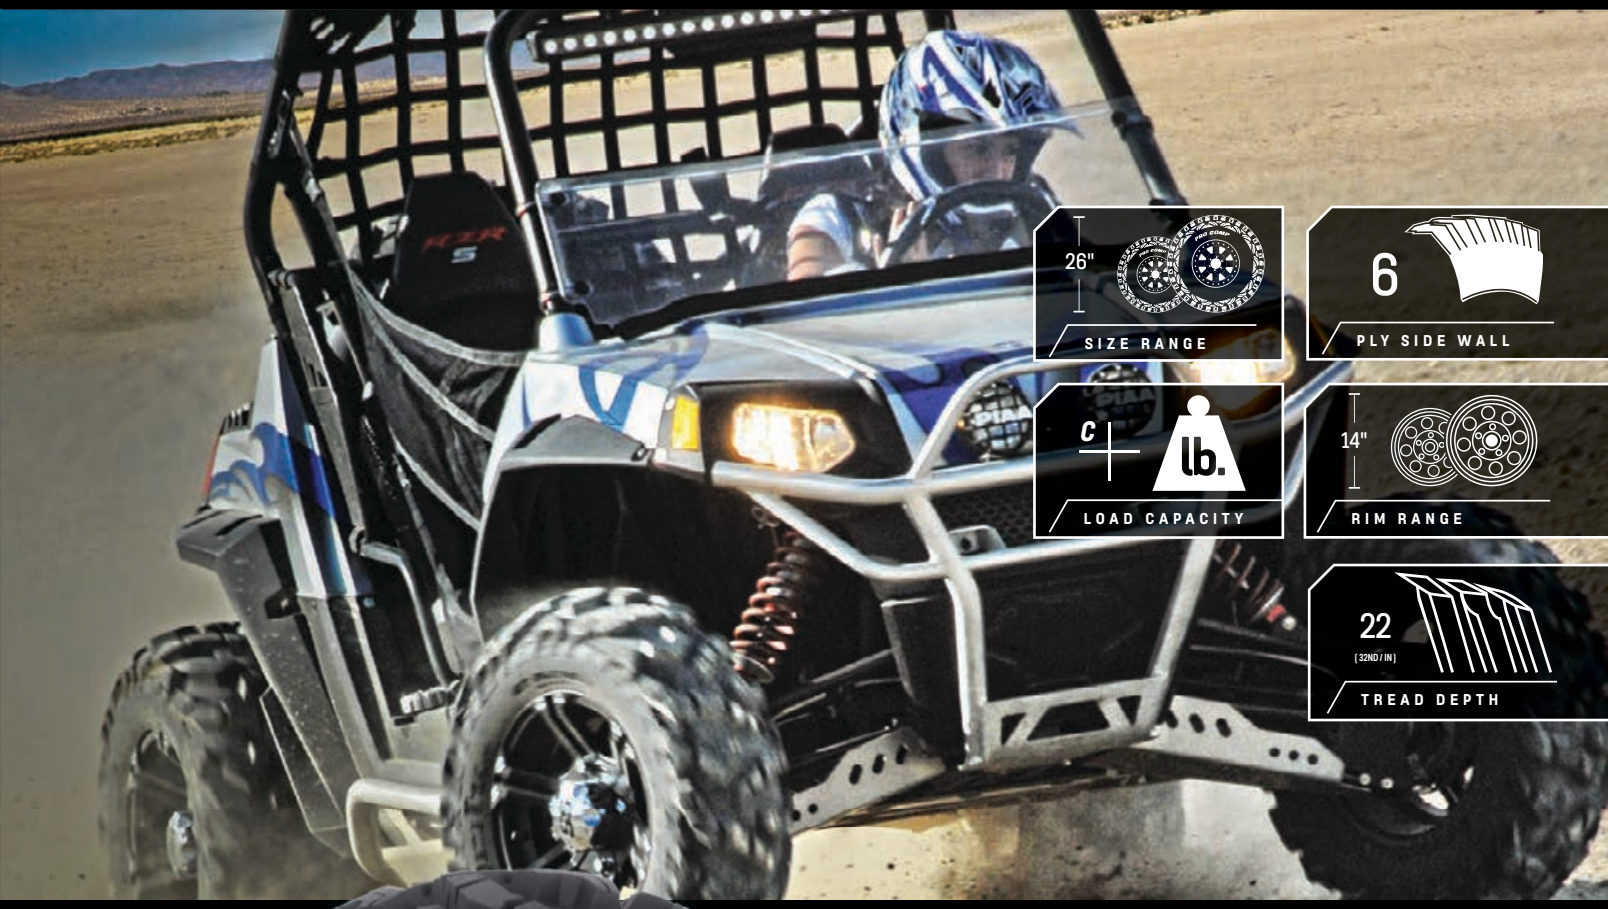
FEATURES AND SPECS

- Directional tread pattern for superior traction on– and off–road
- Scalloped shoulder lugs for maximum bite
- Aggressive styling without excessive noise
- Full length lug sipes for enhanced wet weather performance
- Siped two–rib center traction zone for increased stability and control
- Dualguard™ construction for greater sidewall protection

60 DAY RIDE ASSURANCE

FOREVER WARRANTY NON PRORATED REPLACEMENT

Refer to the Application Guide for specific application availability.



XTREME TRAX

The Pro Comp Xtreme Trax was designed specifically for today's high performance side-by-side UTV's. With hardcore styling, they grip and bite the terrain to conquer any obstacle. At the heart of the tire's design is the cutting edge directional tread pattern which is optimized to deliver superior traction and control. The Xtreme Trax also features aggressive shoulder lugs that enhance off-road traction and provide the ultimate protection for the sidewall and rim.

FEATURES AND SPECS

- Available sizes: Front 26x9R14 / Rear 26x11R14
- Advanced directional tread pattern provides superior control and traction
- Aggressive sidewall and shoulder lugs for extra bite and side wall protection
- Heavy-duty 6-ply radial construction, maximum puncture and abrasion resistance
- High-tech rubber compound provides long treadwear life with a smooth controlled ride
